

Position: Welder

Salary: \$18.00/hr.

Status: Full-time - Non-exempt

Job Description: A skilled welder working in a production environment is responsible for cutting, fabricating, and welding metal using industry standard techniques and safety guidelines.

Responsibilities include (but are not limited to):

- Capacity to interpret and adhere to technical drawings to carry out project specifications
- Adherence to MIG and TIG welding standards
- Ability to follow verbal instructions
- Operate industry standard tools and equipment including saws, grinders, and CNC machinery
- Maintain equipment in a manner that doesn't compromise safety
- Ability to weld metal components precisely using manual welding equipment
- Follow safety protocol such as, wearing heat-resistant gloves, protective welding helmet, and proper footwear
- Perform other duties as requested

Requirements:

- Formal training via vocational or technical school and/or relevant welder certifications
- Forklift experience
- Aluminum MIG welding experience (brazing, soldering, wiring, and insulating)
- Ability to lift up to 75 lbs. and perform repetitive physical movements such as reaching, pulling, pushing, and kneeling.
- Occasionally work overtime
- Strong work ethic and dedication to production of quality work
